Capability Statement

Company Overview

Plumbing and hydrating Australia's largest events.

Founded in 1999, Transplumb Events is dedicated to delivering exceptional hydraulic services for local and international event organisers. With over 25 years of industry leadership, we specialise in major events, maintenance, and construction, ensuring your projects run smoothly from start to finish.

Our experienced team of site managers and tradespeople provides innovative, tailored plumbing solutions that meet the unique needs of event management companies, builders, and large commercial clients. Backed by a skilled leadership team, including experienced directors, operations and administrative staff, we guarantee seamless project execution – no matter the size or scope.

Choose Transplumb Events for dependable, high-quality plumbing that keeps your events flowing and your business moving forward. Your success is our mission. We are certified to ISO 9001, ISO 14001 and ISO 45001.

Who We Are

Our vision, mission and values guide how we plan, build and deliver every event, and how we work with our clients and with each other.

Vision

To set the benchmark for smarter, safer and more sustainable event infrastructure, powered by great people and trusted systems.

Mission

We build trusted teams and dependable systems that deliver outstanding plumbing, water and waste solutions for major events across Australia.

Our Values

01 **Safety Without Compromise**
No deadline, saving or shortcut is more important than safety.

02 **Own the Outcome**
We take responsibility for the result, not only the task.

03 **Quality Is the Standard**
We follow our systems, protect our reputation and deliver work we are proud to stand behind.

04 **Stronger Together**
We succeed as one team through trust, support and clear accountability.

05 **Open and Early**
We speak honestly, communicate clearly and raise issues before they grow.

06 **Solutions First**
We stay practical, proactive and focused on what will work best for the client and project.

07 **Grow People, Grow the Business**
We invest in leadership, learning and opportunity so the business can scale beyond its directors.

The practical test: a decision should not satisfy one value by breaking another. The best TPE decisions are safe, owned, high-quality, collaborative, transparent, solution-focused, and make our people and business stronger.

Our Services

At Transplumb Events, our comprehensive range of services is designed to provide peace of mind and reliable outcomes for our clients by focusing on what truly matters – safety, quality, and efficiency.

Every service we offer is driven by the goal of reducing your risks, lowering your costs, and ensuring a seamless, safe experience – because your peace of mind is our top priority.

Core Services

Major Event Plumbing Overlay

Delivers end-to-end temporary plumbing and gas overlay solutions for major events across Australia, from site assessment and utility mapping to rapid deployment of potable water mains, sewer and waste capture, temporary fixtures, hot-water and catering connections, and certified LPG/natural gas distribution for vendors and production equipment.

All installations meet Australian standards and are performed by licensed plumbers and certified gas technicians with pressure testing, leak detection, commissioning, and 24/7 on-site support.

We coordinate permits and inspections with authorities, provide risk assessments and emergency response plans, and offer sustainable options like low-flow fixtures and greywater capture to minimize environmental impact while ensuring seamless, safe infrastructure for every event.

Event Hydration Solutions

Transplumb Events delivers scalable, site-wide hydration solutions for events of any size, providing potable water infrastructure, refill stations, coordinated distribution, on-site monitoring and maintenance, and regulatory compliance.

Our turnkey service includes sustainable options (low-waste refill stations, filtration, green logistics) and experienced crews to ensure uninterrupted hydration for attendees, staff, and vendors.

Commercial Plumbing Water and Sanitary Systems

Delivering durable, compliant systems that minimise ongoing maintenance costs and prevent disruptions during your events or operations.

Project Management

Ensuring your project stays on schedule and within budget, reducing the risk of delays and unforeseen costs through expert planning and oversight.

Fire Main and Hydrant Systems

Providing dependable fire safety infrastructure that meets strict safety standards, giving you confidence in your site's safety readiness.

Specialty Services

Civil Drainage

Installing high-performance drainage solutions that prevent flooding and water damage, protecting your investment and ensuring operational continuity.

Gas Fitting

Implementing safe, compliant gas systems that eliminate concerns over leaks or hazards, ensuring the safety of personnel and your environment.

Hot Water Systems

Installing efficient, dependable hot water solutions to support daily operations, reducing downtime and maintenance concerns.

Backflow Prevention Installation and Testing

Safeguarding your water supply from contamination, thereby minimising health risks and ensuring regulatory compliance.

Video Drain Inspections

Pinpointing issues quickly and accurately, reducing excavation work and minimising project delays.

Roofing and Cladding

Securing your structures with weather-resistant materials that reduce future repair needs and safeguard your assets against the elements.

Water Tank Installation

Providing reliable, long-lasting water storage solutions that support your event or project without interruption, enhancing operational resilience.

High Pressure Drainage Cleaning

Maintaining clear, optimal drainage systems to prevent overflows or failures, reducing potential disruptions and costly repairs.

Thermostatic Mixing Valves Installation and Testing

Ensuring safe, temperature-controlled water delivery to protect vulnerable users and comply with safety standards.

What Sets Us Apart

What sets Transplumb Events apart is our deep understanding of the unique demands of live events and large-scale functions.

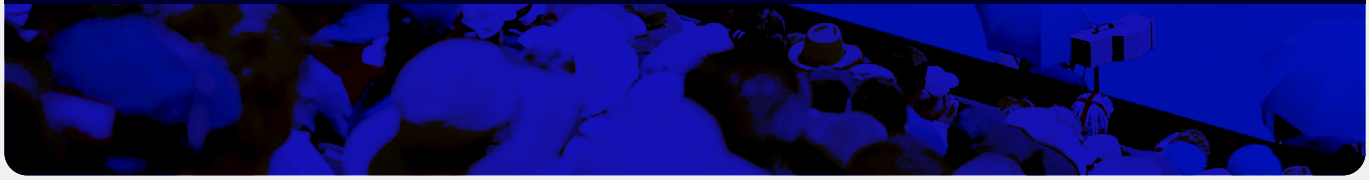

We are event-savvy, meaning we don't just provide plumbing; we deliver solutions tailored specifically to the fast-paced, dynamic environment of events. Our team has extensive experience working alongside event organisers, builders, and venue managers, enabling us to anticipate challenges, coordinate seamlessly with other contractors, and ensure that plumbing services are delivered with minimal disruption to your program. This proactive, detail-oriented approach reduces risks and keeps your event flowing smoothly, from setup to breakdown.

Unlike our competitors, we combine technical excellence with a genuine appreciation for the complexities of event logistics. Our ability to quickly adapt, manage concurrent projects, and provide innovative, compliant plumbing solutions means you benefit from a partner who understands that in events, timing, safety, and reliability are everything. We're not just about meeting standards – we're about exceeding expectations and ensuring your event's success with flawless execution that you can trust.

Our Clients

Our Approach to Greener Plumbing and Water Services

At Transplumb Events, we are committed to reducing our environmental impact through sustainable plumbing practices.

We prioritise eco-friendly materials, water-saving technologies, and energy-efficient systems to help conserve precious resources.

Our team works with clients to develop solutions that not only ensure operational efficiency but also contribute to environmental preservation.

From implementing rainwater harvesting systems to utilising low-flow fixtures, every decision we make is guided by our mission to protect both people and the planet.

We are currently working with ReForest to reduce our carbon footprint by planting trees and supporting healthy forestry in Australia.
